

# Senior Leader Seminar Introduction

What Will Army Business Systems  
need to Look Like in 5 Years?  
10 Years?

# Strategic Thinking With a Tactical Approach

- Are we standing at the Doorstep at the next major fundamental change to business automation since the PC?
- Looking at the 25 and 50 meters targets today to slay the red hordes out at the 400 meter mark:
  - IPv 6 to Web 2.0S to Semantic Web,..
  - Web Based Applications
  - Funding for a service versus a product, APC server versus desktop
- Defining the problems before they overtake our processes
  - Army Funding line allocation for distributed web services
  - True Life Cycle methodology For SOA environment
